EDUCATION

University of Florida

B.S. Microbiology and Cell Science, Minor: Early Childhood Studies

Certificates: University of Florida Honors Program, University Research Scholars Program

GPA: 3.98

SKILLS

Technical: Python, R, JavaScript, Flutter/Dart, Office 365

Certifications: Basic Life Support (BLS) including CPR and AED, First Responder

LEADERSHIP

President: UF Dream Team

April 2026 – present

- Direct application cycles (~500 applicants) for the Fall and Spring.
- Create alumni newsletters, organize new member retreats.

Director of Recruitment: UF Dream Team

March 2025 – April 2026

- Direct application cycles (~500 applicants) for the Fall and Spring.
- Create alumni newsletters, organize new member retreats.

Music Production Lead: UF Audio Engineering Society

November 2025 – present

- Teach ~30+ students music production lessons using Ableton Live 12.

RESEARCH

Researcher: Feng Lab Group

February 2026 – Present

- Assisted in organic chemistry research focused on improving aryne generation from aryl triflates using non-competitive bases, including proton sponge-derived methods.
- Prepared reaction substrates and evaluated how different bases affect reaction efficiency/selectivity under mild conditions.

Researcher: UF Dream Team Engineering

January 2025 – Present

- Gained research experience through conducting literature reviews and proposals with guidance from professor
- Created proposals evaluating the efficacy of diastolic parameters as an indicator of transplant coronary artery disease (TCAD)

Researcher: UF Dream Team Engineering

January 2025 – Present

- Testing and an interactive 3D-model of an anxiety-minimizing ablation procedure to educate kids and their families with guidance from professor

Researcher: Gentry-Sun Lab

July 2025 – August 2025

- Learned the preparation of tissue samples through SPEX sample prep machine
- Gained experience in Western-blotting and micropipetting

Researcher: Course-based Undergraduate Research Experience

January 2025 – May 2025

- Gained research experience through conducting research proposals with guidance from professor
- Created proposals for testing variability in temperature and microhabitat on the physiology and presence of Brown Anoles (*Anolis sagrei*)
- Gained experience in R through statistical analysis
- Gained hands-on experience through capturing anoles in fieldwork

EXPERIENCE

Pediatric ICU / Pediatric Cardiac ICU Volunteer: UF Shands Children's Hospital

January 2025 – Present

- Round on patients and provide comfort through both units (10-2, 10-4)
- Provided comfort with kids through games, TV, etc.

Music Producer: Personal

January 2019 – Present

- Produce electronic, indie, jazz music, with over 180k all-time streams

Member: Florida Eta Phi Delta Epsilon

January 2025 – January 2026

- Manage rush and application cycles as a recruitment committee member

Developer: UF Dream Team Engineering

January 2025 – May 2025

- Developed range of motion app for post-op orthopedic patients to make check-up appointments more efficient
